SUBJECT: Quarterly Status Report on Joint Study Group Recommendations

TO: The Secretary of Defense

1. The quarterly status report is attached. It covers recommendations not previously reported completed, for which DOD is wholly or partly responsible.

2. Six of the 19 recommendations involving DOD had been reported accomplished by 1 September 1962. Seven more are at this time reported accomplished or provided for. Of the six left, two (Nos. 7 and 9) involve ELINT, which in any case is being treated in a broader context than that of these particular recommendations. The same is true of two remaining recommendations (Nos. 4 and 12) concerning personnel and training. It is anticipated that completed action can be reported on these two upon approval of the DIA Intelligence Career Development Plan which is being forwarded for JCS consideration. The SSO system (No. 6) is the subject of a DIA plan now under consideration by the JCS. The last (No. 30), concerning USIB membership, is in abeyance.

QUARTERLY STATUS REPORT ON JOINT STUDY GROUP RECOMMENDATIONS

RECOMMENDATION	STATUS	ESTIMATED DATE OF COMPLETION
1. SecDef bring DOD military intelligence organizations into consonance with the concept of the 1958 Defense Reorganization Act by realignments and by strengthened JCS management and operational control.	The establishment and development of DIA and the realignment of guidance to intelligence elements of field commands have accomplished the objectives of this recommendation.	Completed
2. Draw increased resources needed by JCS and unified commands from existing resources of military departments and component commands.	All plans make provision for transfer of resources with functions. Differences of view in some cases on optimum transfer of resources are under resolution.	Provided for
3. Clearer control of intelligence budgeting procedures by the SecDef.	Through the program system, management analysis procedures, and detailed development of combined cryptologic and non-cryptologic budgets the objective of this recommendation is provided for.	Provided for
4. Policies for more rigorous selection and training of attache and other intelligence personnel. 12. Improve career management for military personnel in military departments.	DIA's plan for career management and development is under revision. The Defense Intelligence School will be activated in the near future. Charters for the Defense Language Institute and the Armed Forces Air Intelligence Center are issued and activation planning progresses. The photo-interpretation/sensor training plan will soon be submitted.	Continuing

RECOMMENDATION	STATUS	ESTIMATED DATE OF COMPLETION
6. Improve the SSO System.	This recommendation will be accomplished as a part of the general improvement of command and intelligence communications now under development. A plan for a DIA SSO System has been submitted to the JCS.	Continuing
7 & 9. Reexamine feasibility of placing more ELINT resources of U & S commands under NSA control; and reappraise adequacy of ELINT R & D.	The objectives of these two recommendations will be met by the National ELINT Plan. Terms of references and a schedule of work have been proposed by NSA.	Continuing
8. Strengthen NSA control over Service cryptologic agencies (SCA's).	Provision for detailed review by NSA of SCA budgets and a strengthening of NSA control of processing resources have accomplished the principal objectives. Outcome of the National ELINT Plan will contribute.	Provided for
30. Reduction in the number of USIB members.	Action on this recommendation is being reserved until the reorganization of military intelligence has progressed further.	In abeyance
34 & 35. Transmittal of intelligence guidance to unified commands and through them to component commands through JCS-approved channels, and control by unified commands over intelligence activities of component commands.	The necessary basic realignments in organization and in channels have been made. Detailed implementation will continue for a long period. The pace of development of the new relationships between the unified and component commands will be influenced by that of corresponding DIA-Service relations.	Provided for
